

# Matteo Sesia

Bridge Hall 308, Marshall School of Business, University of Southern California, Los Angeles, CA 90089  
sesia@marshall.usc.edu — <https://msesia.github.io>

## ACADEMIC POSITIONS

---

**Assistant Professor**, (June 2020–present). Department of Data Sciences and Operations, Marshall School of Business, University of Southern California.

## EDUCATION

---

**Ph.D. in Statistics**, 2020. Stanford University. Advisor: Emmanuel Candès.

Thesis title: New methods for variable importance testing with applications to genetic studies.

**M.S. in Physics of Complex Systems**, 2015. Politecnico di Torino & Université Paris-Sud (joint).  
Graduated *cum laude* (top final grade and highest honors).

**M.A. in Statistics and Applied Mathematics**, 2015. Collegio Carlo Alberto.  
Graduated *with distinction* (highest honors).

**B.S. in Engineering Physics**, 2013. Politecnico di Torino.  
Graduated *cum laude* (top final grade and highest honors).

## AWARDS

---

Jerome H. Friedman Applied Statistics Dissertation Award (2020).

International Master's Scholarship, Université Paris-Saclay (2014–2015).

Allievi Honors Program, Collegio Carlo Alberto (2011–2015).

## TEACHING

---

University of Southern California:

BUAD 310: Applied Business Statistics (undergraduate), Fall 2020.

Stanford University:

Stats 390: Consulting Workshop (graduate), Summer 2018.

Stats 195: Introduction to R (undergraduate), Spring 2018, Spring 2020.

## PROFESSIONAL SERVICE

---

*Journal referee*:<sup>1</sup> Annals of Statistics (2), Bayesian Analysis (1), Biometrika (4), Briefings in Bioinformatics (1), Journal of the American Statistical Association (1), Journal of the Royal Statistical Society B (1), Nature Communications (1), Operations Research (1), SIAM Journal on Mathematics of Data Science (1), Statistical Science (2).

*Conference referee*: COLT (1), ISIT (1), NeurIPS (1).

## PUBLICATIONS AND PREPRINTS

#### Preprints

- [1] M. Sesia, S. Bates, E. Candès, J. Marchini, C. Sabatti. Controlling the false discovery rate in GWAS with population structure. (2020). <https://doi.org/10.1101/2020.08.04.236703>
- [2] C. Chia, M. Sesia, C.-S. Ho, S. Jeffrey, J. Dionne, E. Candès, R. Howe. Interpretable signal analysis with knockoffs enhances classification of bacterial Raman spectra. (2020). <https://arxiv.org/abs/2006.04937>

#### PREVIOUS RESEARCH EXPERIENCE

---

**Research Intern**, Adobe Systems Inc., Summer 2017. Mentor: Yasin Abbasi-Yadkori.  
 Invented a new adaptive bandit algorithm and proved regret bounds.

**Research Intern**, École Normale Supérieure Cachan, Spring 2015. Mentor: Nicolas Vayatis.  
 Studied algorithms for inferring network structure from epidemic diffusion observations.

**Research Intern**, Collegio Carlo Alberto, Spring 2013. Mentor: Alfredo Braunstein.  
 Studied message-passing algorithms for approximate inference in systems with quenched disorder.

#### PRESENTATIONS

---

##### Invited presentations

*Controlling the false discovery rate in GWAS with population structure.* Yale University, School of Public Health. Feb. 16, 2021, in New Haven, Connecticut (virtual event).

*Negative control variables for testing conditional genetic associations.* University of Nottingham, School of Mathematical Sciences. Dec. 17, 2020, in Nottingham, UK (virtual event).

*Negative control variables for testing conditional genetic associations.* University of Milano - Bicocca, Department of Economics, Management and Statistics. Dec. 2, 2020, in Milano, Italy (virtual event).

*Efficient Uncertainty Estimation for Machine Learning Classifiers.* RMDS Lab, IM DATA Conference 2020, Nov. 2, 2020, in Pasadena, CA (virtual event).

*Gene hunting with knockoffs.* Johns Hopkins University, Mathematical Institute for Data Science. Feb. 18, 2020, in Baltimore, MD.

*Developments in knockoff generation and genetic mapping.* USC Marshall School of Business, DSO Department. Jan. 27, 2020, in Los Angeles, CA.

*Developments in knockoff generation and genetic mapping.* UC Davis, Department of Statistics. Jan. 6, 2020, in Davis, CA.

*Reproducible localization of causal variants across the genome.*

Regeneron Pharmaceuticals. Sept. 17, 2019, in Eastview, NY.

*Multi-resolution localization of causal variants across the genome.*

23andMe. May 21, 2019, in Mountain View, CA.

*Reproducible localization of causal variants across the genome.*

Stanford University, Statistics Department seminar. July 16, 2019, in Stanford, CA.

*Deep knockoffs.*

Stanford University, Statistics Industrial Affiliates Meeting. Feb. 22, 2019, in Stanford, CA.

*New tools for reproducible variable selection with knockoffs.*

Collegio Carlo Alberto, Statistics Seminar. Dec. 19, 2018, in Torino, Italy.

*Gene hunting with knockoffs for hidden Markov models.*

Université Grenoble Alpes, Bayes in Grenoble Seminar. July 10, 2018, in Grenoble, France.

#### Contributed presentations

*Classification with valid and adaptive coverage.*

NeurIPS, spotlight presentation. Dec. 8, 2020 (virtual event).

*Gene hunting with hidden Markov model knockoffs.*

Royal Statistics Society Conference, Sept. 3–6, 2018, in Cardiff, United Kingdom.

*Gene hunting with knockoffs for hidden Markov models.*

Workshop on Model Selection, Regularization and Inference, July. 12–14, 2018, in Vienna, Austria.

*Gene hunting with knockoffs for hidden Markov models.*

Computational and Methodological Statistics Conference, Dec. 16–18, 2017, in London, United Kingdom.

#### Poster presentations

*Genetic mapping with knockoffs for diverse and related samples.*

American Society for Human Genetics Annual Meeting, Oct. 27–30, 2020, virtual meeting.

*Multi-resolution localization of causal variants across the genome.*

American Society for Human Genetics Annual Meeting, Oct. 15–19, 2019, in Houston, TX.

*Multi-resolution localization of causal variants across the genome.*

Higher-Order Asymptotics and Post-Selection Inference Workshop, Aug. 17–19, 2019, in St. Louis, MO.

*Gene hunting with hidden Markov model knockoffs.*

American Society for Human Genetics Annual Meeting, Oct. 16–20, 2018, in San Diego, CA.
